**FREE Sunglasses (retail value of \$150.00)
with LASIK or PRK procedure**

If you are considering a LASIK or PRK procedure in the near future, we invite you to our office for a FREE CONSULTATION.

At the consultation visit, you will be able to order a FREE PAIR OF SUNGLASSES (retail value of \$150.00). This order will be presented to you on your first day post op. As a commitment to our patients, we feel that it is important that all of our laser patients have a great pair of sunglasses to protect them from the harmful ultraviolet rays of the sun.

You will pick out the sunglasses of your choice, up to \$150.00 retail. We will order them in for you prior to your surgery day, and they will be dispensed on your one-day post op in our office.
